CLIENT FEEDBACK REVISION — Homepage (Revision 03)

Source: `In Data/1103/Webpage_Layout_대강.xlsx` (dated 2026-11-03), sheets **Layout 구성** and **벤토그리드**. Scope: **Concept A** (`/concept-a/`). The embedded image in the Layout sheet (Foot row) is a screenshot of the Concept A "Talk to the VISION HITECH sales team." band, which identifies Concept A as the reviewed design. Concept B is unchanged.

Rule: SITE STRUCTURE STAYS — sitemap, mega menu, mobile menu, product / solution / support / media / company routes unchanged. Only the Concept A **homepage layout, visual tone and content priority** and the **shared footer** change.

1. Layout sketches in the Excel file (column "구성")

The 벤토그리드 sheet contains box sketches for each band. They are treated as the layout rule:

Band	Sketch	Implementation
1 Head	Full background, `1 2 3 4` boxes + a wide box bottom-left (button 3종)	Full-bleed image hero; bottom bar = 01-04 slide indicators + 3 CTA
2 Solution	4 tall boxes in one row	4 tall cards in one row (desktop)
3 Why	Background image, 4 boxes along the bottom	Image canvas, 4 boxes on the lower edge
4 Network Products	Row 1: 3 boxes · Row 2: wide box (4) + small box (5)	3-column bento: 1·2·3 / 4 (span 2) · 5
5 HD Analog Products	2 × 2 wide boxes	2 × 2 horizontal cards
6 Special Camera	2 wide boxes side by side	2 wide environment cards
7 Application	Background image, 5 boxes along the bottom	Image canvas, 5 boxes on the lower edge
8 Support	Background image, 8 boxes (2 rows × 4)	Canvas, 2 × 4 boxes
9 What's new?	Background image, 5 boxes along the bottom	Image canvas, 5 boxes on the lower edge

Note: the written brief asked Section 2 not to use four equal cards; the client sketch shows four equal tall boxes in a row. The client sketch takes precedence. Hierarchy inside the row comes from each card's visual (product / comparison / diagram), not from card size.

2. Feedback mapping

Feedback	Current implementation (before)	Required change	Affected component	Status
Overall white tone	Light base, but dark CTA band (`bg-fg`) and grey footer; very large section padding	White / #F8F8F8 / #F2F3F5 section tones; brand orange as accent only; dark CTA band removed	`globals.css` (.theme-a), all home sections	Done
Compact Bento	12-col bento, 300px rows, 20px gaps, 144px section padding	Tighter gaps (12px), lower section padding, boxes grouped as one system per band	`home/SectionsA.tsx`	Done
Full image Hero	5:7 split — copy on white + product canvas on the right	Full-bleed image canvas under the header, no side margin	`home/HeroA.tsx` , `app/concept-a/page.tsx`	Done
White Header / Logo / Language	White header, primary (colour) logo	Transparent header on the hero: white logo (W-03), white menu,	`HeaderA.tsx`	Done

Feedback	Current implementation (before)	Required change	Affected component	Status
		language, icons; white header after scroll / menu open		
5 second Hero rotation	Manual 4-product tab switcher	Autoplay every 5 s; background + title + description + visual change together; pause on hover / focus; pause button; indicators; reduced-motion = no autoplay	`home/HeroA.tsx`	Done
4 Hero contents	4 products (bullet, dome, PTZ, NVR)	① End-to-end Video Surveillance Solution ② Ultra Low Light 24/7 Color Solution ③ Zoom Modules ④ End-to-end Video Surveillance Solution	`content/en/home.ts`	Done — ④ **NEEDS CLIENT CONFIRMATION**
3 CTA buttons	Explore Products + Product Inquiry	Explore Products (primary) · Inquiry (secondary) · Download (tertiary)	`home/HeroA.tsx`	Done
Youtube / LinkedIn in Product Inquiry	Not present	Icons next to the header "Product Inquiry" button and in the footer inquiry row	`HeaderA.tsx`, `FooterA.tsx`, `shared/Social.tsx`	Done — links go to Media Center › Youtube / LinkedIn (no official channel URL found)
Solution-first content	Product line → bento → featured products → technology → solutions	Order 1 Hero → 2 Solution → 3 Why → 4 Network → 5 HD Analog → 6 Special → 7 Application → 8 Support → 9 What's new	`app/concept-a/page.tsx`	Done
Short 1-2 line feature description	Longer bodies, callouts	Graphic → title → 1-2 line description → Learn More	`home/SectionsA.tsx`	Done
Section 2 Solution	(Solutions list lower on the page)	4 cards: End-to-end / Ultra Low Light 24/7 Color / Zoom Modules / Edge AI Video Solution	`SolutionBandA`	Done
Section 3 Why Visionhitech	Photo + facts + pillars	Image canvas + 4 client titles; hover colour + lift + subtle expansion; Learn More	`WhyBandA`	Done — two titles are **CLIENT-PROVIDED CLAIM** (FACT_CHECK.md)
Section 4 Network Products	Product line section	IP Camera / NVR / Software / Zoom Module / Accessory, real product images	`NetworkBandA`	Done
Section 5 HD Analog Products	—	AHD/TVI Cameras / DVR / Software / Accessory	`AnalogBandA`	Done
Section 6 Special Camera	—	Transportation Camera / Marine Camera, environment image + real product	`SpecialBandA`	Done
Section 7 Application	—	5 boxes A-E on an image canvas, hover colour + lift + expansion	`ApplicationBandA`	Done — names **NEEDS CLIENT CONFIRMATION**
Section 8 Support	4 open columns	8 boxes (all Support menu items), hover colour change	`SupportBandA`	Done
Section 9 What's new	News section with 3 posts	5 boxes Notice / Event / News Letter / Youtube / LinkedIn, hover colour + lift + expansion	`NewsBandA`	Done
Compact White Footer	Dark CTA band + tall grey footer	One white, compact footer: inquiry row + social, logo, key navigation, contact, copyright. Built as a single component for the detailed structure the client will send later	`FooterA.tsx`	Done (structure provisional)

3. NEEDS CLIENT CONFIRMATION

Item	Client source	Handling
A. Hero slide ④	④ "End-to-end Video Surveillance Solution" — identical to ①	Text kept as written. Different background image so the slides remain distinguishable. Hero 04 title is duplicated with Hero 01 in the client source file.

Item	Client source	Handling
B. Application ①-⑤	"A", "B", "C", "D", "E"	Shown as Application A-E boxes. No application names created. Learn More goes to the Solutions overview until names and pages are defined.

4. Other points to confirm

- YouTube / LinkedIn official channel URLs — none found on visionhitechsecurity.com or visionhitech.co.kr (checked 2026-11-04).
- Footer detailed structure — client will send later.
- New environment photographs (Wikimedia Commons, CC0 / CC BY) used as backgrounds — see ASSET_SOURCES.md; replace with client photography when available.
- Section 3 uses the official head-office photo (1400 px source); a higher-resolution company photo would improve this band.

5. Also fixed during QA

- Product detail (VNP36D5VAR) at 1024 px: model-name heading overflowed its column by 5 px (existed before this revision) — heading size reduced between 1024 and 1279 px.
- `scripts/e2e-check.py`: compare-slider check moved to Solutions › Technology (homepage technology band removed by the client order); two Revision 03 checks added (hero tabs / 3 CTA / header overlay, band order 2-9 + social icons).
